Tape-In & Beaded Hair Extensions

Monday, November 5th
10:00 am - 1:00 pm

This class is designed to introduce stylists to the Tape-In and Beaded methods of hair extensions, including I-Tip and Flat Tip, in one class. This class is designed for stylists that are new to the extension category. This is our most requested type of training for extensions. Participants will get some hands-on experience in applying the extensions. They will also leave with marketing strategies, ways to make the most money possible for their time and how to boost their career.
