

TEASE WITH EASE

LIVED-IN DIMENSIONAL BLONDING TECHNIQUE FOR EFFORTLESS HAIR

If you're going for a low maintenance, blended, sun-kissed look - teasing is a go to for that effortless grow-out effect. Lived-in color specialist Cyrus Miller will showcase his signature Tease with Ease placement for effortless blondes.

In this class you'll learn the three parts of lived-in color (face frame - pops, tips, teasy lights - root shadow) and the purpose of teasing to create diffusion, depth and dimension. Create natural looking highlights that are dimensional and feel like the sun did all the work!

Format: Look and Learn + Demo
